

## Ambush markers

### Clarifications 2.1

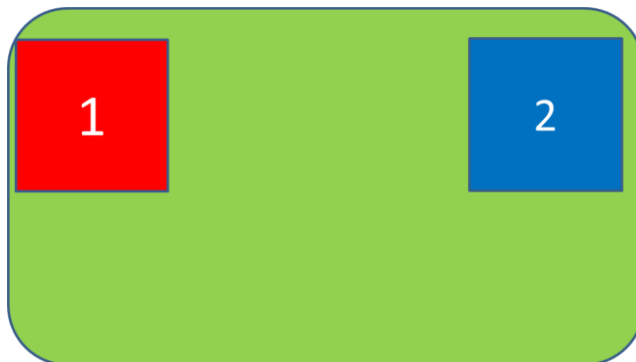

- 
- 

### Questions :

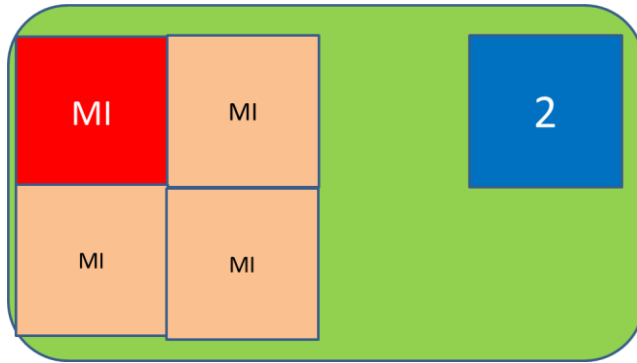

1. How to manage interpenetration of ambush markers by friendly units ?
2. How to manage the successive revelation of ambush markers in the same terrain?

### Answers :

1. It is possible to interpenetrate friendly ambush markers under the following conditions :
  - a. In all cases, the ambush of the interpenetrated marker must be fully revealed, in conformity with the rule on revealing an ambush. If the ambush marker is a dummy, the doubt is removed. ;
  - b. The interpenetration movement takes place with respect to the general rule about allowed interpenetrations and positions adjustment.
  
2. If there are 2 or 3 ambush markers in the same terrain, there must be enough space to physically deploy all the units of these 2 or 3 ambushes. Units must never overlap or interpenetrate each other during the initial deployment, even if the markers are revealed successively. For instance,
  - a. In a 4 UD x 2 UD orchard, a player has 2 markers representing respectively 4 MI for marker #1 and 4 Bowmen for marker #2,

- b. If the players chooses to reveal marker #1 as per below :

c. Thus, the only allowed deployment of the 4 bowmen of marker # 2 is as follows:
